KAS Learning Information Centre UPDATE

Common Sense Media

Chess club was eagerly received this week with more students joining up. Chess develops some good thinking strategies and is a good way to spend quality time with your child. I would like to highly recommend an excellent site for parents called COMMON SENSE MEDIA found at <http://www.common sense media.org/> "Common Sense

Media is dedicated to improving the lives of kids and families by providing the trustworthy information, education, and independent voice they need to thrive in a world of media and technology. We exist because our nation's children spend more time with media and digital activities than they do with their families or in school, which profoundly impacts their social, emotional, and physical development. As a non-partisan, not-for-profit organization, we provide trustworthy information and tools, as well as an independent forum, so that families can have a choice and a voice about the media they consume." (Common Sense Media Webpage) Retrieved from <http://www.common sense media.org/about-us/our-mission>

If you are unsure about the quality and security of a website or social media site your child may be interacting with Common Sense Media is an excellent reference.

Over the next few weeks I will be sharing current information from Common Sense Media that I hope will help keep you informed concerning the best digital diet for your child.

Next week we will take a look at Club Penguin.

Make sure you come in and have a look at the amazing land yachts designed by Mr Humphries' Clever Yr 6 Students.
